

## Invitation to GeoMixer@ACRS 2021

Dear ACRS Colleagues,

As you may know, the 42nd Asian Conference on Remote Sensing (ACRS 2021) is planned to be organized from November 22 to 24 at Can Tho University, Vietnam. However, due to the corona virus situation, most of the event of ACRS 2021 will be organized online. Since last year, we are losing the chance of meeting and exchanging friendships among the ACRS community.

GeoMixer is a monthly meeting event organized online to produce a new opportunity for networking with other remote sensing scientists at all career stages from around the world.

This year, AARS Council Members, ACRS 2021 Local Organizing Committee and GeoMixer Organizer agreed to organize GeoMixer@ACRS 2021 in the evening (17:00-18:00 Vietnam Time) of November 22, the first day of ACRS 2021, for networking not only within the ACRS community but also with the other remote sensing scientists at all career stages from around the world. This virtual mixer will support networking with the participants into a series of small breakout rooms in Zoom. Please join the GeoMixer@ACRS 2021.

To join GeoMixer@ACRS 2021, please register at <https://bit.ly/3Bg4HfG>

We'll be sending you some instructions few days before we begin the event.

GeoMixer@ACRS2021

Date: November 22, 2021

Time: 17:00-18:00 (Vietnam Time, UT+7)

Best Regards,

Kohei Cho, General Secretary, AARS

Sheryl Rose, Chair, ACRS Student Group

Phan Kieu Diem, Chair, ACRS2021

6 AM NEW YORK | 10 AM UTC | 5 PM VIET NAM | 6 PM SINGAPORE | 9 PM SYDNEY

The November 2021 GeoMixer event is an opportunity to network with other members of the Remote Sensing, Photogrammetry and Geospatial communities at all career stages & from around the world!

This event is a specially organized GeoMixer for attendees of the 42<sup>nd</sup> Asian Conference on Remote Sensing (ACRS 2021), organized by the Asian Association on Remote Sensing (AARS) and Can Tho University Viet Nam.

This virtual mixer will support networking with other participants that you may not have otherwise met by assigning participants into a series of small breakout rooms in Zoom. This event is inspired by IALE-NA 2020's Student Mixer and our successful first GeoMixer event at Geo for Good 2020.
